Make up water meaning in english

(meɪkʌp wɔːtə) name (Chemical engineering: Drying and evaporation) As pure water evaporates from the tower, pure water is replaced by make-up water. With each passage through the system, a little water is sprayed, so a little makeup water is needed. Make-up water is water that is added to compensate for losses, especially losses caused by evaporation. COBUILD keywords for chemical engineering. Copyright © HarperCollins Publishers Source Definition of Makeup Water from Collins' Collins English Dictionary New by Collins Sign up for our newsletter Get the latest news and access exclusive updates and offer Sign Me Up a New Hope for New Year's Eve is traditionally when we stare firmly forward in hope, having looked back on the year just ended. Which, despite the negatives, has seen a healthy increase in good neighborliness and kindness as demonstrated, for example, by caremongering. Read more about The Water Makeup Translate as you type world-leading quality Drag and drop documents Translate now 1. n. [Drilling Fluids] Adding water to maintain or dilute a water mud system. The added water can be fresh water, seawater or salt water, if any for the mud. The volume of makeup water is an important parameter in controlling the balance of materials on solid content and solid removal efficiency for a mud system. The amount of dilution has a strong influence the economy of the mud. If fresh makeup water is needed, treatments to remove hardness ions should be done before adding water to the mud to avoid clay flocculation and polymer precipitation. Synonyms: Dilution Water See: calcium test, chloride test, clay-water interaction, hard water, hardness ion, material balance equation, native solids mud, peptized clay, seawater mud, total hardness test An alarm must be provided to stop grey water recycling system if disinfectant levels are not maintained at the required levels. C101.8 Make-up water. Make-up water systems must be equipped with a warning mechanism that warns the user of a failure of the input control valve to close properly. Make-up water must be provided for all nonpotable water supply systems. This socket is often referred to as main drain or aspiration output. b) Make-up water refers to the fresh water used to fill or fill the pool. (c) multiport valve refers to a valve for various filtering operations, which combines in one (1) unit the function of two (2) or more single-flow valves. Make-up water must be introduced into the solution pots by an air break or other approved method, in order to prevent rear siphoning. From the Longman Dictionary of Contemporary Englishmake to the verb phrasal1 form/be

make up somethingCONSIST OF/BE MADE OFBE to combine to form something syn constitute Women represent only a small part of the prison population.be made up of something The committee is made up of representatives from all states.
